CHURCH NEWS

DR. RAMEY TO SPEAK

(Continued from Page One)

President. An extra effort was made by each of the Sunday classes of the Sunday School, under the direction of the superintendent, Claude W. Wood, to have a record attendance for the day.

Dr. Ramey received the degree of Doctor of Philosophy from Yale University and the Honorary D. D. degree from his alma mater, Randolph-Macon College. He is a member of the Phi Beta Kappa scholastic fraternity, an author of several publications, and a world traveler. A biographical sketch is to be found in "Who's Who In America."

Prayer membership is urged and present for this signal occasion which commemorates the establishment of the first church on the Virginia circuit, in 1899, under the leadership of Rev. P. M. Bell, and to celebrate the Remodeling of the church and the building of the Parish House Annex, which was dedicated by special services on October 30, 1938. Memorial has had a glorious history through the sixty-two years of its life and is now progressing in a vigorous expansion program looking for a new Church Sanctuary and Church School building.

Supper served on the five and one-half acre corner lot on Court Square, adjacent to the Court House. Reservations are being asked by the Men's Fellowship and Evangelism Committee, Mrs. H. D. Fulks, chairman. Bring basket lunches, and delicacies together in the cafeteria, and on the spot for an enriching time of fellowship.

Mrs. A. Babcock, chairman of the committee, is in charge of arrangements for the dinner.

This will be the second annual observation of recent years.

The May 15, has been designated by the Official Board for the observance of the Annual Church School. Every member is urged to be present for this important service. Conference Year, when it was suggested for the New Year beginning on June 1st. The Pastor have for the sermon subject "Beginning Another Milestone". The Sanctuary Choir will present the music. At the evening hour, 8 o'clock, The Chapel Choir will give the musical selection. The minister will give the fourth in the series of messages on The Beatitudes.

The Commission on Education will meet in the Wesley Fellowship Assembly Room on Tuesday evening at 7:45, with Mrs. David M. Trent, chairman, presiding.

7:30 P. M. Prayer Meeting, Mr. John Hall leading.
8:15 P. M. Senior Choir.

Our pastor and Bill Moore will attend the Southern Baptist Convention in Miami, Florida, May 17 to 20. They will travel with some 300 Virginia Baptists by special train from Richmond, leaving Monday and returning on Sunday. The Virginia messengers to the convention will be staying at the Shore Club Hotel.

Youth Week was a gratifying success, May 1-8, with Randy Almond serving as pastor. Fifty offices were filled efficiently by the youth during the week, under the theme, "Trust. Try, Prove."

The Youth Banquet was attended by forty-five youth, carrying out the theme, "Maytime In the Beautiful Garden." The food was prepared by ladies of the WMS and was served by men of the Brotherhood.

Our youth proved that they are worthy investment of time, effort and prayers, in development to their full potential as Christians.

Southside Electric Co-op Cites Story of Its Growth

(Continued from Page One)

ed December 15, 1936; and its leaders were hard at work signing up prospective members. On March 3, 1937 Southside Electric Cooperative received its first loan from REA of One Hundred and Ten Thousand dollars ($110,000). By Christmas of 1937 the Cooperative was serving 147 consumer-members in four (4) counties with electricity.

"During the years that followed, there were many Doubting Thomases' that were suspicious of the outcome of the Cooperative. Some were afraid of electricity; others did not want to let lines cross their property. For those who believed in the Cooperative, these minor obstacles were overcome; and through continuous education of the benefits of electricity, great progress was made in electrifying Southside Virginia.

"The first offices and warehouses of the Cooperative were located in very inadequate, rented buildings in Blackstone, Virginia. As the Cooperative began to grow and move westward bringing the Town of Crewe, Virginia, nearer its center, efforts were made by Crewe officials to locate this new business in their town. In 1941 the Crewe Chamber of Commerce donated $5,000 and ten (10) acres of land to Southside Electric Cooperative with the understanding that, they would move their facilities to Crewe. Work began on the modern headquarters the same year and on December 7, 1941, Southside Electric Cooperative occupied its new headquarters building. Later as further expansion took place, it was necessary to construct an addition to the building. In 1949 a second floor was added to accomodate the General Engineering and Power Use Department.

"After the war the demands for additional facilities and increased power-use made it necessary to construct a warehouse and service facilities in Altavista, Virginia.

'Today the Southside Electric Cooperative is serving 15,700 consumers in seventeen (17) counties of Southside Virginia.

"The prediction for the next twenty (20) years indicate that the average consumer will be using five times the 281 kilowatt hours he is now using. In years to come, as the American public demands for better living conditions are met, they will be Living Better Electrically; and Rural Electrification will have made a major contribution to this step in progress."

Age But Not Sage

Nobody really knows the age of the human race, but all agree that it is old enough to know better. —Onawa, Iowa, Sentinel.

About The Home

If your house is beginning to look old, shabby and drab, it is time to paint it. Whether or not you give it a full basement-to-roof job or just brush-up work, you will find you can give your home a complete new personality.

Knowing what paint and equipment to buy is half the battle. The first, and most important step, is preparation of the surface to take and hold the paint. For this you will need a rough sandpaper, steel wool, or a wire brush, or a scraper. You'll want ladders and cross planking for the upper reaches of the house.

In addition to the paint, you will need extra cans for mixing, paddles for stirring, strainers, for removing lumps and clothes for wiping up spatters. If possible, have some drop cloths for protecting your shrubbery and porch roof.

Buy only good brushes. A brush four-and-one-half to five inches across is best for painting large areas. A sash brush is needed for narrow strips and a brush one-and-half to two inches wide is best for the trim.

You will need some paint thinner to clean your brushes, and some linseed oil to break them in. Surfacees to be painted must be absolutely dry.

Check and see if any wood replacements are needed under the eaves, around window heads, and sills on posts or steps, etc.

Find out about the many kinds of paint and choose one that is made to meet your needs.
